**Attachments:** FA Exposure Quality-latest.docx

Andrew,

I have reviewed the three studies you sent me.

## Ex. 5 Deliberative Process (DP)

At least you have one good study! I have attached the updated exposure quality table which includes these three studies.

Have a nice weekend!

John

**Subject:** new human controlled exposure studies to be considered for neuro section

Hi John,

These 3 articles are those inhalation studies to be considered (evaluated) for inclusion in the neuro section, based on SRC's lit search update. I would appreciate it if you could add these to your table.
